

Magnum[®] M Suture Implant

Preloaded with MagnumWire[®] Suture

The Ideal Medial Row Implant

Use Magnum M medially for superior double-row rotator cuff repairs.

- Preloaded with two strands of MagnumWire suture
- Cortical fixation bone lock provides unparalleled pull out strength and minimum gap formation
- Smallest diameter medial row anchor preserves the maximum amount of native insertion footprint
- Fast, easy, consistent, repeatable
- Fully cannulated

Combine Magnum M medially with Magnum X laterally and the 4-Runner[™] Suture Shuttle for the fastest, easiest and most secure transosseous equivalent double-row repair (see figures 1-4) that preserves the most anatomic insertion footprint.
